

Application for a Designated Emphasis in Chemistry Education (CHED)

None of the courses used for the DE in Chemistry Education may be used to fulfill the requirements in the student's MS or PhD program. Students must be in a PhD program to participate and cannot begin the DE coursework until candidacy has been completed within the regular research program. The DE coursework should be completed within one year after the completion of candidacy. A minimum GPA of 3.0 in all courses taken for the designated emphasis (DE) is required for the award of the DE Any substitutions must be justified by the DE Director in writing and approved by the Graduate Dean prior to enrollment in the course. 100-level courses must be accompanied by an appropriate 292 course, which requires additional readings and research.
